

Narendra Modi
Prime Minister of India

Dear President,

Thirty years ago, between 7,000 and 10,000 people died within three days of a toxic gas leak at a pesticide factory in Bhopal. Thousands of survivors and their descendants have suffered long-term health problems.

What's more, contamination from chemicals left at the abandoned factory site continues to pose a serious health risk for the local community.

I urge the Indian government to clean up the factory site and ensure the companies responsible for the gas leak and ongoing pollution are held to account.

Yours sincerely,
